

## BECOME A FRIEND

YOU CAN ADD YOUR SUPPORT to the effort of the Editorial Board of CHEMISTRY. BULGARIAN JOURNAL OF CHEMICAL EDUCATION to transform the journal into a forum for sharing and discussing ideas and news about teaching chemistry and presenting experimental and theoretical aspects of chemistry. We welcome contributions that treat these subjects in their historical, cultural and social context. The Bulgarian society has been closed by the communist regime for more than half of century and our aim is to overcome the bad consequences caused.

YOU CAN ADD YOUR SUPPORT by becoming a Friend with a tax-deductible contribution. Friends receive our journal, their names appear in one of the issues of the journal and their articles published in Khimiya can be downloaded in PDF at <http://khimiya.org>
